

Service proposal

Your new professional website

Prepared for {{empresa}} by Latinos Business Support

DATE

Jun 2, 2026

PREPARED BY

Cristian Villavicencio

VALID FOR

30 days

A partnership built for growth

Thank you for taking the time to review this proposal. It was prepared for {{empresa}} by Latinos Business Support after our conversation about strengthening your online presence and winning more of the right jobs in your market.

We specialize in custom-coded websites for contractors and home-service businesses — not cookie-cutter templates. Our work is designed to load fast on mobile, rank locally on Google, and make it effortless for prospects to call, text, or request a quote. The pages that follow turn that strategy into a concrete plan: what we will deliver, how long it typically takes, what we need from your team, and how investment is structured.

Please read the sections in order. “What’s included” and the investment summary reflect the package and options you selected in our builder; one-time project fees are separate from any monthly services unless noted. The deck sections (overview, goals, scope, timeline, and FAQ) expand on how we work day to day. If anything does not match what you discussed, tell us before you sign — we would rather align now than adjust mid-project.

When you are ready to move forward, accept and sign at the end of this document and confirm the deposit so we can schedule kickoff. Questions in the meantime? Reach out to {{preparada_por}} or your LBS contact. We are glad to clarify scope, timing, or pricing before work begins.

This paragraph is intentionally long to stress-test PDF pagination. The generator must wrap text within page margins, continue on the next page without clipping, and keep section headers with their following content readable. Latinos Business Support builds contractor websites with mobile-first performance, local SEO, and conversion-focused calls to action. ABOUT US

About Latinos Business Support

Latinos Business Support (LBS) is a bilingual studio focused on contractors and home-service companies. We combine strategy, custom design, and development — not cookie-cutter templates — so {{empresa}} gets a site that reflects how you actually sell jobs in the field and at the office.

We have launched 120+ websites for trades across the U.S. Our work is built for speed on mobile, clarity for homeowners, and measurable lead generation in your service area.

OUR WORK

Recent work & reviews

Below are examples of contractor and home-service sites we have built — plus feedback from owners who partnered with LBS on design, build, and launch. Your project will follow the same standards: clear messaging, strong mobile experience, and tools your team can use after go-live.

- **Landscaping client** · Landscaping · Connecticut
- **Roofing client** · Roofing · Connecticut
- **Remodeling client** · Remodeling · New York

WHAT YOU GET

What we deliver

- **Custom website for {{empresa}}** — Mobile-first, fast-loading site coded for your services, service areas, and brand
- **Service & area pages** — Dedicated pages that explain what you do and help you rank locally on Google
- **Conversion-focused CTAs** — Click-to-call, SMS, and contact forms placed where prospects decide
- **On-page SEO foundation** — Titles, meta descriptions, headings, and schema tuned for local search
- **Lead capture & routing** — Forms connected to your email or CRM so nothing sits in a black hole

- **Launch & handoff** — DNS, SSL, analytics, training, and a 30-day technical warranty on our work

FEATURES

Website features included

- **Performance** — Optimized images, modern stack, and Core Web Vitals in mind so pages load fast on phones
- **Responsive design** — Layouts that work on phone, tablet, and desktop without pinching or zooming
- **Service area pages** — City or region pages when you cover multiple territories
- **Service detail pages** — Room to explain scope, photos, FAQs, and why you vs. competitors
- **Click-to-call & SMS** — One-tap contact options for homeowners on the go
- **Contact & quote forms** — Custom fields and notifications to your inbox or CRM
- **Google Business Profile** — Basic linking and local SEO hooks so web and GBP work together
- **Analytics & Search Console** — GA4 setup so you can see traffic and conversions
- **Blog or gallery (optional)** — Showcase projects, before/after, or seasonal offers

HOW WE WORK

How we work

1. **Kickoff** — Goals workshop, sitemap, brand assets, logins, and a shared checklist of what we need

from your team (week 1)

2. **Design** — Wireframes and visual mockups for key pages; up to two revision rounds on the agreed scope
3. **Build** — Development, content placement, forms, and internal QA on staging
4. **Review** — Your team tests staging; we implement feedback before anything goes live
5. **Launch** — DNS, SSL, redirects if needed, final checks, training, and post-launch monitoring

YOUR CONTENT

After launch: your content tools

You should not need us for every text or photo change. We configure editing access at a level your team is comfortable with — from guided CMS editing to lightweight updates on select pages.

Optional monthly care covers small content changes, SEO tune-ups, and new landing pages when you want a partner on call instead of DIY.

CONTRACT

Contract terms (stress test)

Master service agreement (stress test)

1. Scope of work

The Provider will deliver the services described in the proposal, including design, development, launch, and handoff.

1.1 Change requests

- ****Standard changes**** — Minor copy or image swaps included during review windows.
- ****Material changes**** — New pages, integrations, or scope shifts require a written change order.
- ****Timeline impact**** — Approved changes may shift milestones and payment dates.

2. Payment terms

1. Deposit – Due upon signature to reserve production capacity.
2. Progress payments – Billed per the schedule in the proposal.
3. Final balance – Due before DNS cutover unless otherwise agreed in writing.

3. Client responsibilities

Provide brand assets, content, approvals, and access to DNS/hosting within **five (5) business days** when requested.

Late client inputs may move launch dates without penalty to the Provider.

4. Warranty & support

- Thirty (30) day technical warranty on Provider-built functionality.
- Excludes third-party outages, client edits, and force majeure.
